

## Snail Activities ..

With kind permission of Supersonicsnail ~ Moderator of TheSnailTrail.co.uk forums, these two photographs provide some great counting matching and sorting opportunities.

**Print and Laminate.**

Use the Snail counters to mark off the size and order of Iredalei blonde snails that are on the sheet.

Ask the children to cover up the Snail with the counter that matches .. encouraging use of language that describes the size and position of the snail.

**Snail Counters**

Large, Huge, Enormous, Big

Medium, in between

Small, Baby, Little

Tiny, Teeny, Minute

**Iredalei Giant African Land Snails ~ also known as Blond Snail.**

These snails may not be the best pets to have in the Classroom as they are one of the few that specie that give birth to LIVE baby snails!

**Iredalei** - Blond/Yellow ones and **Fulica** - Brown stripy **Giant African Land Snails**
