Revised edition based on Dogs Designer Jeans

Craft Project
&
Activity Ideas
From Silksteps

Activity - To learn about the texture and weave of denim fabric, to discuss the types of clothes the children wear and encourage their artistic designing flair.

If you would like to encourage the children to make their own puppet - help cut out their own ideas for a body, head, arms and legs !

Use the trouser / jean template below as pattern to cut a single piece of fabric - or - use as a base to glue collage fabric pieces to.

You will need

White / coloured card

Old denim jean material

Sequins, glitter, beads etc.

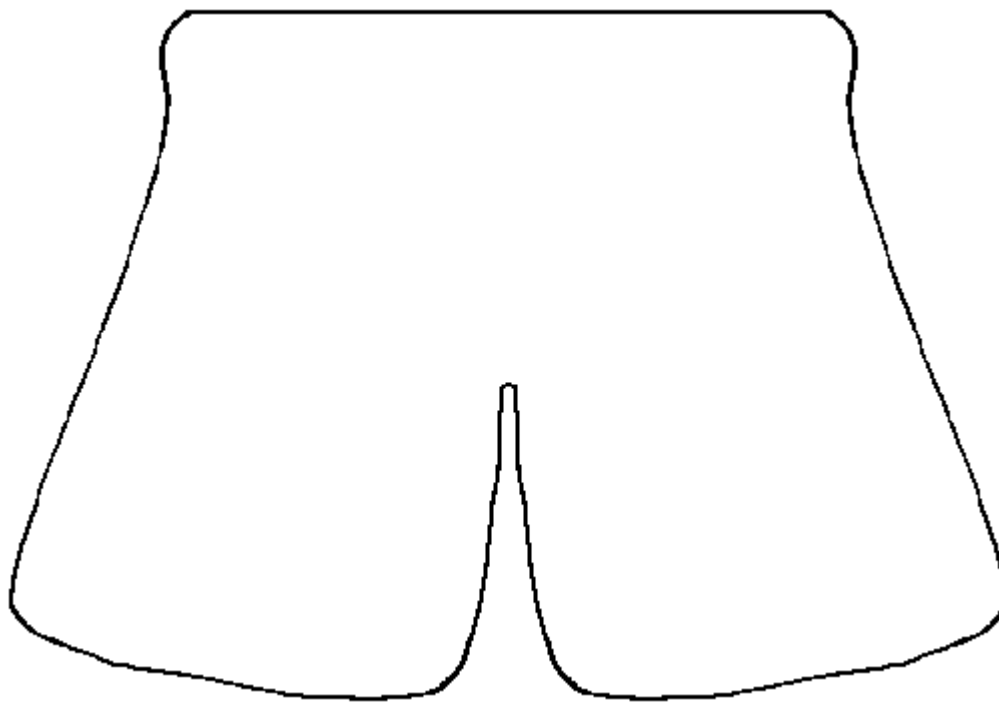

Felt pens - PVA glue - Glitter

1. Photocopy the Body and socks templates and cut out from card..
2. Using the trouser template, cut out the jeans from old denim fabric.
3. Glue the trousers to the lower waistband of the Body - may need stapling for added strength!
4. Glue the socks to the lower edge of the jeans at the ankle area.
5. Add hair and eye colour - have a mirror for the children to see what colour their eyes are.
6. Decorate with the felt pens, glitter sequins and any other crafting items you have.

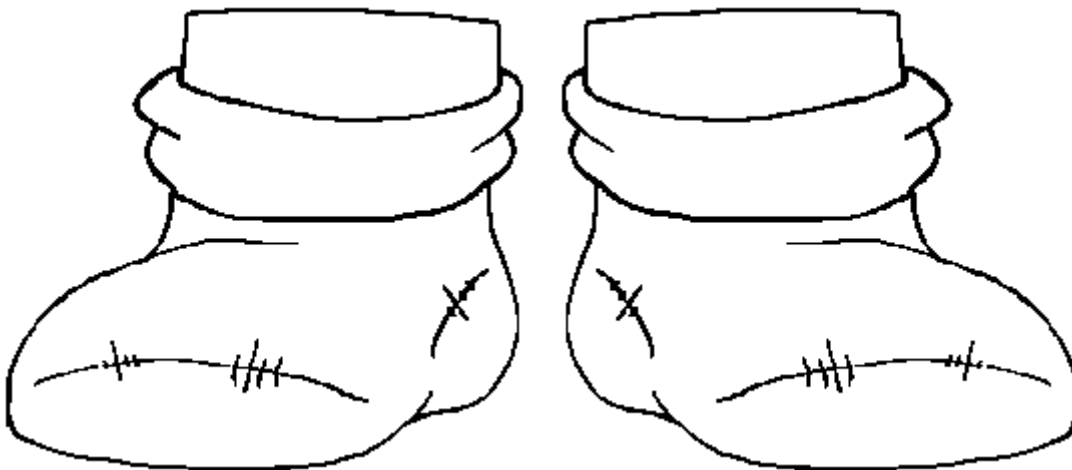

If you are taking part / organising this activity as part of Genes awareness Day Have a wonderful day.

Please remember to let the Children know that making things and decorating them is great fun - but good clothes that we wear shouldn't be used for arts and crafts .. unless you know differently !

Jeans template
Waistband

Lower edge
Glue / attach a sock to each of these edges

Sock templates

Upper body template.
