

# *Slither Snake stampers*

A selection of coloured snakes to slither around your role play paint ..

Written and Illustrated by Ruth Grimes©2009

## **To make:**

- Print and cut out the snake templates
- Laminate the coloured – or - colour the plain and then laminate.
- Use the foam outline to cut the stamper materials.
- Hot glue gun the foam to the underside of the snake.
- Display and role play with paint ..

## **Display**

Make your paint area and snake stampers interesting by displaying them in a 'natural habitat'.

Once the Children are sure they would like to take part, use sheets of white or green paper and show how their chosen snake can slither, glide and mark make around their piece of paper

## **For the table display we used:**

A plain canvas covered in metallic wrapping paper as the base.

2 x long brown plastic ornamental grass stalks.

Available from many florist and miscellaneous stores.

A shredded green serviette or tissue paper

A shallow tray and paints

Optional – PVA glue to stick on the green paper strips

Paper for the Children to paint on

Selection of pre made Snake stampers.

Foam outline

Use this sheet to allow Children freedom in colour
