

Silkysteps firework safety tips

www.silkysteps.com

- Buy Fireworks from reputable shops.
- Check for a UK safety code on them - BS 7114
- NEVER drink alcohol if you are in charge of lighting fireworks.
- Keep fireworks in a box with a lid.
- Read each firework instruction well before your event.

That way you can prepare for any special needs of the firework.

- Light each one at arms length using a Taper
This is a long thin waxed candle that usually comes with a quality pack of fireworks.
- Stand well back immediately after lighting.
- DO NOT go back to a lit firework.

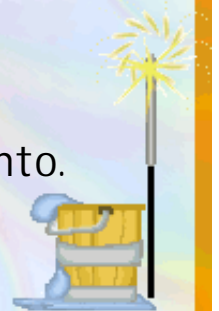

Even if it looks as though it has gone out it could still explode.

- NEVER throw fireworks or keep them in your pocket.
- Supervise young children when watching a firework display.

Sparklers

- Take care with sparklers they can burn.
- Never touch the burnt part of a sparkler.
- Have a bucket of water to throw burnt out sparklers into.

- Keep your pets safely indoors – they HATE the noise.

Have a fun and safe Fireworks display.
