

DENTAL

Alleviating Waiting Room Boredom!

If you work in a Dental surgery or other orthodontist organisation and have young children attending appointments, you may of found that they can get a little fidgety after having to wait for a few minutes !!

If you'd like to give them something productive to do whilst waiting, the colouring pictures in this PDF should be perfect for the job!!

Print out and display the poster so that your patients know what is being offered and what you expect in return – tidying up of the crayons!

Free Colouring whilst you wait!

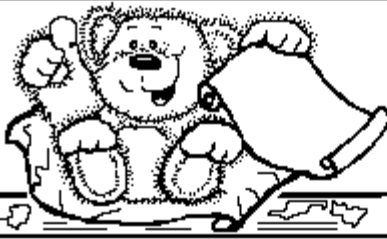

These Colouring pictures are a free resource provided for your child to use whilst they wait for the appointment.

Please take the colouring picture home with you when finished.
The crayons can be placed back in the pot provided.

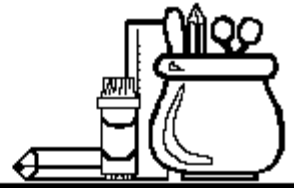

Thank you

Brushing your teeth is very important. They have to last you a long time!

What do you use when you clean your teeth?
Cut the pictures out and show how you use them.

Toothpaste?

Toothbrush?

Dental floss?
